TAKING PRIDE IN YOUR PROPERTY SINCE 2009

FIRE & SMOKE

RESTORATION

We all know how destructive fire can be. However, fire isn't always what causes the majority of the destruction to your property. It's the smoke and the water from the fire hoses that firefighters use to combat the blaze that do the most damage to your property.

We know that it's the irreplaceable items in your home that you're the most concerned about. We have the latest training, technology and equipment to take pride in the preservation and restoration of your property. We will inventory, clean and safely store your property at our contents facility until the restoration of your home is complete.

WATER & FLOOD

DAMAGE CLEANUP

Water damage can arise from broken pipes, blocked drains, sprinkler systems, malfunctioning appliances, rain, snow, fire hoses and many other contributing factors. The appropriate treatment depends on the nature of the damage.

Some water can carry contaminants and may be considered hazardous. Raw sewage and flood waters contain bacteria and other micro organisms which are extremely harmful to human health. Whatever the origin, Elite Restoration is trained and certified in the proper water removal, disinfecting, drying and repairing procedures to guarantee your property is restored properly, efficiently and safe for you and your family.

MOLD

REMIEDIATION

Mold can cause serious health issues and damage to your property. It is commonly found where moisture and/or poor ventilation exist. Such as attics, bathrooms, kitchens, and crawl spaces. Mold becomes harmful when it is airborne and enters your lungs. Elite Restoration has trained professionals to handle the hazards of mold and remediate it to ensure your safety in your home.

RADON

TESTING AND REMEDIATION

Radon is a naturally occurring radioactive gas that is colorless, odorless, and tasteless. Testing is the only way to know the level of exposure to the home. Radon is a carcinogen and is the second leading cause of lung cancer in the US.
